## TIGRIS Level 3 Medical Masks

ASTM INTERNATIONAL

### LEVEL 3 PROTECTION

- Ideal for procedures where moderate to heavy amounts of fluid, spray and/or aerosols are produced.

VastMed TIGRIS Level 3, 3-PLY, Medical Grade masks are designed with an elastic ear loop strap that is user friendly and comfortable. The form-fitting nose band ensures a snug fit. Each mask is individually packaged to reduce the risk of cross contamination. Our masks conform to the ASTM International standards and can be used in a medical setting including, but not limited to, hospitals, clinics, and

### SPLASH PROTECTION

- Ideal for procedures where moderate to heavy amounts of fluid, spray and/or aerosols are produced

### CONTOURING FOREHEAD PAD

VastMed's TIGRIS protective Isolation Face Shield protects you by offering full coverage (from forehead to chin) against airborne droplets. It is highly transparent and includes an anti-fog coating that greatly improves visibility. With its sturdy and lightweight shield, it can be worn for an extended length of time and easily cleaned throughout use. The contouring foam pad and 1/2" stretch band provides additional forehead comfort during long-term wear.

## TIGRIS CUBS Children's Masks

ASTM INTERNATIONAL

### LEVEL 2 PROTECTION

- Ideal for procedures where low to moderate amounts of fluid, spray and/or aerosols are produced.

# LEONE Blue Nitrile Gloves

VastMed's Leone Blue Nitrile gloves are made from durable, puncture resistant, protein and powder-free nitrile. Our gloves are not made with natural rubber latex, which eliminates Type I allergic reactions associated with natural rubber latex. Textured fingertips enhance grip at points of contact. LEONE gloves are highly elastic and soft, feature a rolled rim for ease of donning, and protects against a variety of chemicals including chemotherapy drugs.

## Specifications

| Material       | Nitrile  |
|----------------|--|
| Type           | Non-Sterile, ambidextrous  |
| Color          | Cerulean Blue  |
| Cuff           | Standard examination length  |
| Glove Exterior | Textured fingertips  |
| Glove interior | Powder-free  |
| Packaging      | 100Pcs/Box<br>1000Pcs/Case   |
| Sizes          | XS, S, M, L, XL<br>(2XL Special Order)   |

## CHEMOTHERAPY DRUG PERMEATION TESTED

Resistance to Chemotherapy Drug Permeation Tested as per ASTM D6978

| Chemotherapy Drug for Testing | Average Normalized Breakthrough Time (Minutes) | Chemotherapy Drug for Testing | Average Normalized Breakthrough Time (Minutes) |
|-------------------------------|--|-------------------------------|--|
| Cisplatin (1 mg/ml)           | > 240  | Fluorouracil (50 mg/ml)       | > 240  |
| Dacarbazine (10 mg/ml)        | > 240  | Paclitaxel (6 mg/ml)          | > 240  |
| Etoposide (20 mg/ml)          | > 240  | Mitomycin-C (0.5 mg/ml)       | > 240  |
| Cyclophosphamide (20 mg/ml)   | > 240  | Vincristine Sulfate (1 mg/ml) | > 240  |
| Doxorubicin HCl (2 mg/ml)     | > 240  | Thiotepa (10.0 mg/ml)         | NR*  |
| Carmustine [BCNU] (3.3 mg/ml) | NR*  |                               |  |

\*Not recommended for use with Thiotepa and Carmustine.

### CAUTION

Components used in the manufacture of gloves may cause allergic reaction in some users. Persons with known sensitivity should avoid contact with gloves. Follow your institution's policies for use. Gloves used for protection against chemotherapy drug exposure should be selected specifically for the type of chemical used. Refer to the drug label or MSDS sheet to determine adequate level of protection.

### STORAGE CONDITIONS

Store in a dry, ventilated place. Avoid exposure to direct sunlight. Do not store above 100 °F (38 °C) or below 41 °F (5 °C).
